ScopeX – annual telescope and astronomy expo - Saturday 15 September 2018

Website: www.scopex.co.za

ScopeX is an annual event held at the Military History Museum, an excellent venue for the whole family to visit. ScopeX focuses on interests on general astronomy, amateur telescope making, astrophotography, science and technology.

ScopeX invites anyone to come and exhibit their astrophotos or homebuilt telescope/s. Exhibitor guidelines are found on the website.

The day includes interesting talks, exhibits and demonstrations as well as commercially available items at special show prices. Amazing raffle prizes to be won.

Some sessions are aimed at sharing information useful to parents, educators and youth organisations. There is also an opportunity to apply and be awarded a telescope for youth outreach purposes.

The Programme will be updated regularly and downloadable from the website.

Note that some of the sessions require pre-booking before the day as well as on the day at the Help Desk.
